Fettercairn Fior

42%

Released with no age statement, Fettercairn Fior contains 15 percent heavily-peated whisky matured in first-fill ex-bourbon barrels, along with a proportion of 14 and 15 year old spirit. The result is a bold and complex whisky with real nose presence; smoke, sherry, toffee, vanilla, and oranges merge on the nose, while the palate showcases more smoke and toffee, plus spices, oak, and licorice in the lengthy finish. £36 Not currently available in the U.S.
