

The Dalmore Spey Dram

40%

The Spey Dram is made up of 36 percent whisky matured in ex-oloroso casks and 64 percent from American oak. The nose offers fresh oranges, brittle toffee, cream, and ginger. The nutty palate reveals fresh fruits, and is significantly spicier than the other Rivers expressions, with ginger and even chili notes. The finish is long and notably spicy, with less chocolate than in the three other Rivers variants, ending with a touch of treacle. £42 Currently not available in the U.S.
