

Limeburners Single Malt M76

43%

Arguably the world's most improved whisky, Limeburners is unrecognizable from the fledgling releases of a few years back. This is matured in 100-liter American oak barrels and finished in port. It is big and rich in flavor, with oily fruit and floral notes, a trace of young green barley, and menthol, licorice, and spicy cardamom.

Australian whisky is a tidal wave starting to swell. It has some way to travel, but when it strikes it'll be huge. A\$130
