What a success story. After six releases in a decade, there have been three just this year. This release is especially for the States, and it's a fireball. There are dried fruits and dusty bookshelves on the nose, and tropical fruits with water. On the palate it's a big, peaty, rich whisky with licorice and more of the pineapple, kiwifruit, and guava. You get the whole fairground in the finale, with candy, fruit, and smoke. Excellent.
