

Paddy Centenary Edition

43.2%

This marks the biggest identity change since Clark Kent morphed into Superman; the plodding Paddy brand has been reshaped for this limited edition into a young and feisty pot still whiskey. It's meant to recreate the taste of 100 years past, which begs the question: what happened? This has raspberry, violet, and pear, but there's a mysterious stranger at the heart, a pepper and oily center: a bit like a gypsy in a wedding dress. But it scrubs up well. €75
