

## St. George's Chapter 13

49%

In the UK, Trick or Treat is still linked to Halloween and all things spooky. So this unlucky 13 is at 49% (4+9) and is priced in British pounds at £66.60. It just happens to be the best thing the distillery has done so far. The extra strength, lots of honeycomb sweetness, and a big hit of peat make this a coming of age whisky, with no immaturity and bags of great flavors. £67
