

**Whistling Andy Straight
Bourbon**

40%

Local Montana grains in an impressively brown all-Montana bourbon. Has a small-barrel smell to it—a dry wood and hard candy note I'm starting to

recognize—and a snap of rye.

Interesting: light but not weak in the mouth. I found their moonshine not that clean, but the wood's done a good job on it. Rye grass and sweet corn mingle with pepper and anise. Clean finish.

(Montana only)
