

Gooderham's Bonded Stock

40%

Bonded Stock was a Gooderham and Worts brand until Harry Hatch moved production to Windsor during Prohibition. Dry grain with hints of bicycle tires on the nose become barley sugar and fiery pepper on the palate. Simple with a delicate balance of hot ginger, licorice root, spearmint, savory herbs, watery caramel, and mild ripe fruit, ending with a refreshing bitter tinge. Old-time hard-rye mixing whisky, but go ahead, sneak a wee sip.
