

Peach Mist

35%

Canadian Mist with flavor and sweetener. Boozy but fresh peach, vanilla, and sugar nose; smells like a fresh, juicy peach cobbler; where's the whisky? Very much dessert-like in the mouth, sweet, full, but not cloying; points for that. Finish is peach candies, vanilla, and finally some whisky notes. Even at 35%, I'd like a lot more whisky character here; otherwise, what's the point? Still, head and shoulders above Southern Comfort's flavor experiments.
