

Tomatin 14 year old Port Wood Finish

46%

This portwood finish from Tomatin was matured for some 13 years in bourbon casks before being transferred for a final period of aging in Portuguese tawny port pipes, which had matured port for between 30 and 40 years. Initially reticent on the nose, with soft fruit notes, honey, and toffee, turning to cherry cough lozenges. Gently spiced on the nutty palate, with peaches and Cherryade. The finish is medium in length and always fruity.
