

Dry Fly Washington Wheat

45%

Wheats have a fruitier nose than bourbons, it seems, and this is no exception. Gentle, almost delicate fruits on the nose: white grapes, honeydew melon, baked apple. So smooth on the palate: sweet pastry, light baked apple, a nice oak grip keeping it all together. Sip it straight, or build a big highball with just a splash of soda on the ice. Such a friendly whiskey.
