

Old Pulteney Dunnet Head

46%

Dunnet Head replaces Duncansby Head and consists of 80 percent sherry cask-matured whisky and 20 percent aged in bourbon wood. It is non-chill filtered. Soft caramel on the nose, plus a hint of fresh ginger and meadow hay. Sweet, spicy sherry and a heathery note on the nicely textured palate, with suggestions of citrus and salt. Medium in length, with lingering soft spices in the finish; ginger and cinnamon at the close. *(Travel Retail exclusive)*
