

J.P. Wiser's Union 52

45%

The nose is focused on cereal, hints of fresh ripe cherries, cooked fruit salad, herbs, and overt, bourbon-like charcoal. Take a sip though, and big, beautiful tones of real peat reek rush to the fore on the palate. These are sustained by sweet barley sugar, candied fruit, dry cereal, and a lush mouthfeel.

The smoke, incidentally, comes from a few drops of real scotch added at blending. Very moreish. (*British Columbia exclusive*) \$65
