

Johnnie Walker Island Green

43%

What happens when you light a bonfire underneath Green Label? Earthy peat smoke with medicinal characteristics of lanolin and antiseptic, a salty tang balanced with creamy vanilla, strands of citrus, and touches of menthol and aniseed. Smooth as a thief in the night; mouth-coating toffee, growing smoky notes, and peppered mackerel push back the waxy, citrus elements. Now the fire is alive; the sweetness gets out while it can.
