

High West Double Rye! (Batch #18A23)

46%

High West made a momentous change to its recipe for Double Rye! this year, for the first time adding its own house-made pot still rye to a blend that was previously fully sourced from other distilleries. Apple blossom, yuzu, chamomile tea, walnut shells, pine boughs, and green-apple candy on the nose shift into an oily palate that starts off soft and then picks up speed and spice. Flavors of lemon, black pepper, walnut-and-apple chutney, dark chocolate, and a lively hit of green apple make this a satisfying

pour—especially at the price.

Above all, it validates High West's skill as both blenders and distillers in their own right. [Number 14 in the 2018 Top 20](#)
