

Creek Water American Whiskey

50%

Sweet kettle corn and caramel-covered nuts on the nose, along with a smoky and woody aroma—dry toasted wood on a fire. The palate is led by sugary grain and wood char, with caramel corn and grilled corn on the cob, along with a hint of wood spice.

It's cloying and sweet on the finish, yet retains strong oakiness. Distilled from a bourbon mash and "finished" with toasted wood chips using a proprietary technology.
