

Amrut Fusion X

50%

A deeply intense whisky, with prunes, molasses, black grape, peppercorn, black mustard seed, and allspice notes, then a waft of burnt heather twigs. The palate is a dense concoction of brown sugar, stewed fruit, pepper, oxidized apple peels, bramble, oak tannins, clove, and hints of savory juices. Water tames the tannins, flushing out a softer, fruitier side, but this sophisticated profile is still quite an acquired taste. (216 bottles for the U.S.)
