Those of you who think Canadian whiskies are thin and bland should give this one a try. No, it's not a new concept, like Forty Creek. It's still very much a "traditional" Canadian. But when compared to most Canadian whiskies, it's richer, creamier, and velvety smooth. The flavors are straightforward — primarily vanilla, with some crème brûlée, toasted marshmallow, tangerine, peaches and cream, and gentle rye spice — but they are clean and well-balanced. A delicious, lighter-style whisky.
